Lack of Confidence in Stock Market Halts Early Operations for Advance

DECLINE FOLLOWS CHEERFUL OPENING

Under a Few Adverse Influences Market Suffers Concessions at End of First Hour.

NEW YORK, Oct. 14.-Sentiment in the market this morning reflected the while the more peaceful aspect of the Korean question appeared to be the in-

evidence that some of the large interests were supporting the market. The cent purchase of United States Steel preferred has also encouaged the im-

forts made to segregate the railway department from the influence of the industrials. Business, however, was light, and the bear faction offered little resistance to the fractional advances

The better support given Steel pre-ferred caused a rise of 1%, and the common rose a fraction. Southern Railway preferred continued weak, losing over 1 per cent from its opening. Weakness was rather pronounced in Canadian Pacific. There was especial firmness in Baltimore and Ohio, and Norfolk and Western. Reading second preferred rose

Near the end of the first hour prices suffered some concessions. The only adverse influences were development of further weakness in Amalgamated Copper, Twin City, and Southern Rallway

The tendency of the whole market at the opening was toward recovery. The largest early trading was in Steel preferred, which opened % higher, and rose ¼ further. Copper was prominent, and rose ¾. Sugar was more active, and gained 7-8. Union Pacific, Southern Pacific, Atchison, and the international list generally averaged 1/2 higher. Steel common was quiet, but 1/4 higher. Steel
